

As of March 11, 2020, we will be limiting all unnecessary visits into our homes from families, friends, and outside venters due to the spread of COVID-19. If your visit is absolutely necessary, please make arrangements with your local House Manager or Administrator prior to your visit. We are taking proper precautions to reduce the risk of our residents being exposed to and contracting COVID-19. We are actively monitoring and reviewing information from:

The US Center for Disease Control

New Mexico Department of Health

American Healthcare Association

National Center for Assisted Living

Beehive Corporate Office

Please contact the House Manager or Administrator if you have questions and for more ways to stay in contact with your loved ones during this time. Thank you for helping us work together to protect our Seniors.
